PROFESSIONAL SUMMARY

React Native Developer experienced in building, deploying, and maintaining cross-platform mobile applications for Android and iOS, with apps published on the Google Play Store and Apple App Store. Strong hands-on expertise in React Native, JavaScript, REST API integration, Redux state management, and full-stack development with the MERN stack and MySQL, along with release management through APK/AAB builds, TestFlight, and App Store production releases. Currently working as a React Native Developer at Cowberry Industries, with experience in Agile delivery, cross-functional collaboration, and end-to-end app releases. Also an entry-level (fresher) Salesforce learner with foundational knowledge of Salesforce Administration and Development (Apex, SOQL, LWC, Flows) gained through Trailhead and self-study in a Developer Org, and keen to apply my software engineering background in the Salesforce ecosystem.

TECHNICAL SKILLS

Mobile Development: React Native, Cross-Platform iOS & Android Development, Push Notifications, Background Services, Device Permissions & Native Features

Languages & Frameworks: JavaScript, React Native, ReactJS, Node.js, Express.js, HTML, CSS

Databases: MySQL, MongoDB, Firebase

State Management / UI: Redux, Tailwind CSS, Bootstrap

Tools & Platforms: AWS, Git/GitHub, VS Code, Postman, Figma, Canva

Deployment & Release: Android Release Builds (APK/AAB) & Google Play Store Deployment, iOS Builds via Xcode, TestFlight Beta Distribution, Apple App Store Production Releases

Methodologies: Agile/Scrum, Cross-Functional Team Collaboration, Code Reviews, Technical Documentation

SALESFORCE SKILLS (ADMIN + DEVELOPER) — FRESHER LEVEL

Salesforce Administration: Object & Field Configuration, Data Modeling, Security & Sharing Rules, Reports & Dashboards, User Management, Salesforce Setup & Customization

Automation: Flow Builder / Process Automation, Validation Rules

Development (Apex): Apex Classes & Triggers, SOQL & SOSL, Asynchronous Apex fundamentals

Front-End (Lightning): Lightning Web Components (LWC), Lightning App Builder

Practice Environment: Salesforce Developer Org / Trailhead Playground (hands-on configuration and coding practice)

PROFESSIONAL EXPERIENCE

React Native Developer | Cowberry Industries Pvt. Ltd., Surat, India

Jul 2025 – Present

- Built, deployed, and maintained cross-platform mobile applications for Android and iOS using React Native, including the Cowberry E-commerce App and Lantern360, both published on the App Store and Play Store.
- Integrated RESTful APIs and real-time functionality to support core application features and external system connections.
- Implemented background services and device permission handling for reliable, continuous app operation.
- Optimized application performance and UI responsiveness across a range of devices.
- Resolved production issues and delivered feature enhancements and bug fixes.
- Prepared and managed Android release builds (APK/AAB) and iOS builds via TestFlight and the App Store for production releases.

React Native Developer | Qaswa Technologies, Nagpur, India

Sep 2024 – Jul 2025

- Built and deployed multiple React Native applications for Android and iOS, including Anti-Theft, Brand-Boost, Islamic Ishtehar, and Koding Street.
- Integrated native device features and third-party libraries to extend application functionality.
- Designed reusable components and scalable data/UI structures to support long-term maintainability.
- Worked with REST APIs, background tasks, and push notifications across multiple applications.
- Collaborated within Agile development teams to deliver features on schedule.

SALESFORCE PRACTICE PROJECTS

Salesforce CRM Practice Application | Self-Directed Learning Project (Developer Org)

- Designed and configured custom objects, fields, and relationships to model a sample CRM business process (lead and case management) in a Salesforce Developer Org.

- Implemented Apex classes and triggers to handle custom business logic, with SOQL/SOSL queries for data retrieval and record processing.
- Built Lightning Web Components (LWC) to create custom, reusable UI elements for record display and data entry.
- Automated business processes using Flow Builder and enforced data quality with validation rules.
- Set up Reports, Dashboards, and Sharing/Security Rules to support data visibility and business reporting needs.

Hospital Management System | Salesforce Practice Project (Developer Org)

- Modeled hospital operations with custom objects for patients, doctors, appointments, and billing, along with relationships and validation rules.
- Automated appointment handling and status updates using Flow Builder, and built reports and dashboards for patient and appointment tracking.

Delivery Track | Salesforce Practice Project (Developer Org)

- Created custom objects and fields to track orders, delivery status, and assigned delivery staff through the full delivery lifecycle.
- Automated status updates and notifications using Flow Builder, and built reports and dashboards for delivery monitoring.

KEY PROJECTS

Cowberry E-commerce App | React Native | Live Production Application

- Developed a React Native e-commerce mobile application live in production; managed Android deployment to Google Play Store and iOS deployment through TestFlight and the Apple App Store.

Lantern360 | React Native | Employee Management Application

- Built an employee management application with real-time tracking, attendance/leave management, task assignment, and in-app chat; published on the App Store and Play Store.

Koding Street | MERN + MySQL + React Native | Full-Stack Learning Platform

- Built a full-stack learning platform for an institute, including an admin panel, backend APIs (Node.js/Express, MySQL), and a student-facing app with role-based access control.

Anti-Theft App | React Native

- Delivered a mobile safety application with sensor-based detection and Redux state management.

Brand-Boost | React Native

- Built a social media content-creation app with dynamic, reusable UI components.

Islamic Ishtehar | React Native

- Developed and delivered a React Native mobile application with reusable UI components and API integration.

EDUCATION

B.Sc. Computer Science — RTMNU (Sindhu Mahavidhyalaya College, Nagpur), 2024

HSC (12th) — Maharashtra Board, Anjuman Jr. College, Nagpur, 2018

SSC (10th) — Maharashtra Board, Qidwai High School, Nagpur, 2016
